

MuxLab Quad Audio Balun

Neljään audiokanavaa jopa 1 km CAT5e/6 johdolla

Tuotekoodi:	500033
EAN:	627699000335
Valmistaja:	MuxLab
%t_warranty%:	24

MuxLab Quad Audio Balun (500033) allows up to four (4) individual RCA, or two (2) stereo RCA, line-level audio signals to be extended via single Cat5e/6 cable in a point-to-point connection to distances of up to 1km.

Used in pairs, the Quad Audio Balun eliminates the requirement for additional cable infrastructure, allowing audio equipment to be connected via a single cost-effective Cat5e/6 cable.

The Quad Audio Balun is compatible with the MuxLab 500033-WP-US (DecoraT) and the 500033-WP-UK where a convenient wall plate is required, and also works in conjunction with other MuxLab stereo audio baluns such as the 500019 (single RCA) or the 500028 (dual RCA).

- Extend dual stereo Hi-Fi audio signal distances up to 1km via single Cat5e/6
- Frequency response: 20Hz to 20kHz (over distance range)
- Color coded RCA connectors (female sockets)
- Dimensions: 61 x 57 x 25mm
- Weight: 0.103kg
- Compatible with MuxLab parts: 500019, 500028/F/WP-US/WP-UK, 500033-WP-US/WP-UK
- Order information: 500033 (sold individually – used in pairs)
