## WALL SUSPENSION ELEMENT

Universal wall suspension element suitable for small plastic enclosures with a flat base. The adapter (106 x 75 mm) is attached to the bottom part of the enclosure by 4 screws. 4 boreholes  $\varnothing$  3.5 mm are required. The adapter makes it possible to clip the enclosure quickly and easily into the holder mounted on the wall. Optionally, the parts can be secured with 2 screws, thus offering additional protection against removal.

### Supply

1 adapter, 1 holder, 4 Torx stainless steel screws, 2 securing screws
