MINI-DATA-BOX SF40, flat, with flanges 2-part plastic enclosure with flat top part. Bottom part with integrated flanges for fast wall mounting or for mounting on rails and tube profiles or on masts. Robust design with proven tongue and groove connection. Assembled with Torx stainless steel screws. Fixing supports for PCBs and components in the top and bottom parts. Fastening on the supports is by means of hot caulking.

Version Bottom part with flanges, top part flat

Supply Top and bottom parts, assembly kit
