CARRYTEC L Robust plastic enclosure with handle. Recessed surface for membrane keyboards. Flat, impact-protected areas on the bottom part of the enclosure for installing interfaces, plug-in connectors, peripheral equipment etc. Interface installation at the rear, e.g. support arm applications, ensures orderly cable routing through enclosure connection, compatible with VESA standard (100 x 100 mm). Attachment domes for PCBs and components in the top and bottom parts. Stations for easy transmission of data and charging current, as well as battery compartment 5 x AA (processing on request) as an accessory.

Supply Top and bottom parts, TPE handle pad, assembly kit
