PROTEC 220, Vers. I

Modern two piece plastic enclosure with an ergonomically inclined operating panel. Fastening pillars for PCBs and components in the top and bottom parts. Recessed interface area. Wall suspension element and sealing (to raise the protection class up to IP 65) included in the range of accessories. Hidden stainless steel assembly screws with secure Torx heads. Can also be used outdoors thanks to the high-quality material and the robust design.

SupplyTop and bottom parts, assembly kit including 4 self-adhesive rubber feet
