SMART-CONTROL S, Vers. II Two-part plastic enclosure with recessed panel to protect the membrane keypad / décor foil. The basic triangular shape allows it to be used in corners or at an ergonomically favourable angle of 45°. Robust design with proven tongue and groove assembly. Case assembled with Torx drive stainless steel screws. Protection class IP 40 without optional sealing kit. Fastening pillars for PCBs and components in the top and bottom parts.

Version Case-top with recessed operating area

Supply Top and bottom parts, assembly kit incl. universal adapter
