SLIM-CASE M, Vers. VI3-piece handheld enclosure with TPE intermediate ring, compact design, with a large operating panel of up to 4" (10 cm). Comfortable grip thanks to enclosure contours that are rounded along the sides and intermediate ring made of TPE, which also serves as impact protection and as a sealing ring for protection class IP 54. Recessed operating panel for using a contoured transparent front screen (available as an accessory with adhesive film) or for protecting individual membrane keyboards. Fastening pillars for mounting PCBs in top and bottom parts..

VersionWith TPE intermediate ring and operating panel recessed 1.6 mm

SupplyTop and bottom part, TPE intermediate ring, assembly kit
