

OKW CONTROL-KNOB Base 36

PA 6, nero

Tuotekoodi: B7536209

EAN:

Valmistaja: OKW

B7536209

Base 36 Suitable for all CONTROL-KNOBS 36. Additional machining of front panel/enclosure front is required (hole for potentiometer spindle and slot for anti-rotation device).

Use:

- Mandatory for "CONTROL-KNOBS 36, optional illumination" for installing the LED illumination.
- On request, can also be used for all "CONTROL-KNOBS 36 without illumination". Here, the base provides additional space between the knob and the operating panel for an elegant floating appearance.

Supply 1 base
